NEW AWAKE
LEADERS

1.11.1 New Years - New Awake Leaders- Full Moon Manifesting Class Sheet

1. What energies do you want to put attention on in dreaming 2017?
(ie: clarity, peace, expansion, freedom...)

2. What areas of leadership most inspire you from below. Feel and don't think too much and notice which few feel strongest. Which ones "POP?"

Spiritual Leadership

Divine Feminine & Masculine Leadership

Earth Stewardship

Conscious Entrepreneurial Leadership

Sustainable Community Leadership

3. Which area do you have some sense of Mastery in? What experience(s) have you had to be able to feel in integrity in leading others in this?

4. Which area are you WANTING to be in leadership but still feel you must grow before you guide others through?

KEY: #3 is where you are prepared to lead others + #4 is where you want to pray/call in guidance to manifest more support with.

5. Meditation

- Breathe, Ground, Feel and come into your heart with a smile
- Clear and let go of other distractions, energies in the way
- Look within at third eye
- Ask Divine for guidance about your path this year. Call in directions, Angels and Guardians. STAY HERE for a few minutes and listen and WITNESS. What colors, symbols, words and guidance come? Take note. Observe.
- Open your eyes. Call in your Higher self in 8th chakra and beyond and take responsibility for your life in CO CREATIVE Union with the Universal and Spiritual Energies available
- Breathe and feel gratitude as if you are LOOKING OUT at your vision in front of you (away from computer screen)
- What are you saying YES to this year? Say it outloud or to yourself. See it with eyes open. Feel it and stay grounded.
- Imagine all energies coming to you. Be a magnet for this dream and let the energies of your YES fill you up.
- Imagine overflowing with love and energy for the people, land, animals, children and community you serve.
- Imagine that you are THE LIVING RAINBOW flowing through all of your body like a REDWOOD TREE – rooted and open at the same time and a channel for Earth and Sky – Spirit and Form
- Let go. Breathe and tell the Universe that you TRUST it to provide for you.

So be it.

Follow up – Do you want to co-create a project with us/me or are you interested in mentorship in one of the 5 areas of awake leadership?
